ABOUT ME

Detail-oriented, organized, and meticulous employee. Works at a fast pace to meet tight deadlines. Enthusiastic team player ready to contribute to company success.

WORK EXPERIENCE

Graphics Designer

2022 - 2023

Export Paradise | Nikunja-2

I designed a ton of logos for this exporter of clothing. I work with numerous international designers on projects to create t-shirts, pants, and corporate technical forms. They should be pleased with my work and offer to incorporate my job into another branch in Dubai given that I provided the design within 24 hours, but I'm not interested. Because I have a channel, I require remote jobs.

Motion Graphics

2020 - 2023

DesignWithAi | YouTube

I produced countless logos in Canva, Adobe, and Figma. When I was 21, I could design the logos for more than 20 companies in my neighborhood and then provide digital alternatives. To display my work, I established a Protofolio channel. So kindly review my work before hiring me. Having worked in this field for more than six years, I am far too confident.

UI/UX Design

2018 - 2023

DesignWithAi | YouTube

I created a custom website design framework. I even created a responsive, unique website hero section, banner, ads, product design, and navigation design and also developed it in WordPress, HTML, CSS, JavaScript, PHP and PHP. I also created a prototype presentation for my client. Because I'm a software engineer in computer science.
